Subject: Attestation of Airbus Testing Qualification

Dear Madam, Dear Sir,

You will find attached the Attestation of Airbus Testing Qualification referenced SUR2014.0214 Ind. A.

This Qualification (or extension of Qualification) is valid until end of 2016, except special comment in the Test List given next page(s).

We remind you that the extension of your Airbus Testing Qualification depends on your monitoring on a Quality Aspect and on a Technical Aspect.

On a Quality aspect, we kindly ask you to indicate us any modification which could have a Quality impact.

Concerning our Technical requirements, we kindly ask you to participate at least every 2 years (thus at the latest in 2016 or in the year indicated in the Attestation) to the PTP organized by EXOVA for the tests you perform on Airbus Products. You will find all the necessary information on the following website:

- <http://www.centech-sa.fr/ptp/> for Metallic Materials
- <http://www.centech-sa.fr/ptpcomposite/> for Composite Materials

In case of PTP results out of tolerances, the extension of Qualification will be reduced to one year, subject to acceptance by Airbus of your Root Cause Analysis and associated Corrective Actions and to a new participation to the PTP if necessary.

On the other hand, you will have to supply us the results of your Internal Homogeneity Studies performed in the meanwhile.

Please note that this Qualification may be cancelled by Airbus in case of major incident(s) detecting on one or several test processes.
We wish you good reception and remain at your disposal for any further information or question.

Yours sincerely,

Barbara DAVALOS
Procurement Operations Quality System - POLV
Airbus Laboratories Qualification Manager

ATTESTATION OF AIRBUS TESTING QUALIFICATION

Qualification reference: SUR2014.0214 Ind. A

File followed by: DAVALOS Barbara

We hereby declare the company: **CTA - Aeronautical Technologies Center**

ARP-ID: 261957

Address: Parque Tecnológico de Alava
c/Juan de la cierva, 1
01510 Minano-Alava
Spain

Qualified or Authorised to proceed for the following Tests processes until end of 2016:

Test Standard(s)	Test label	Test category	Qualif. Status	ATP Expiration date	Next PTP participation required	Remark
	Structural Test: Component or multi section (> 10 actuators)		Qualified			
AITM 2-0002	Resistance of Materials when tested according to the 12 s or 60 s Vertical Bunsen Burner Test	2	Qualified			Aircraft interior materials
AITM 2-0003	Resistance of Materials when tested according to the 15s horizontal bunsen burner test	2	Qualified			Aircraft interior materials
AITM 2-0004	Flammability of non-metallic materials - Small burner test, 45° - Determination of the resistance of material to flame and glow propagation, and to flame penetration	2	Qualified			Aircraft interior materials
AITM 2-0005	Flammability of non-metallic materials - Small burner test, 60° - Determination of the resistance of electrical wire insulation materials to flame at 60°	2	Qualified			Aircraft interior materials
AITM 2-0006	Determination of heat release and heat release rate of aircraft materials	1	Authorised to Proceed	December 2015		Aircraft interior m Authorisation granted based in closure of findings from onsite audit. Technical Qualification ongoing
AITM 2-0007	Determination of the specific optical smoke density of component parts or sub-assemblies of aircraft interior	1	Authorised to Proceed	December 2015		Aircraft interior m Authorisation granted based in closure of findings from onsite audit. Technical Qualification ongoing
AITM 2-0009	Fire resistance of aircraft seat cushion utilizing a high density open flame	1	Authorised to Proceed	December 2015		Seat cushions Authorisation granted based in closure of findings from onsite audit. Technical Qualification ongoing.
AITM 2-0053	Determination of flammability and flame propagation of thermal / acoustic insulation materials - Radiant panel test	1	Authorised to Proceed	December 2015		Thermo/acoustic insulation materials Authorisation granted based in closure of findings from onsite audit. Technical Qualification ongoing.

ATTESTATION OF AIRBUS TESTING QUALIFICATION

Qualification reference: SUR2014.0214 Ind. A

File followed by: DAVALOS Barbara

We hereby declare the company: **CTA - Aeronautical Technologies Center**

ARP-ID: 261957

Address: Parque Tecnológico de Alava
c/Juan de la cierva, 1
01510 Minano-Alava
Spain

Qualified or Authorised to proceed for the following Tests processes until end of 2016:

Test Standard(s)	Test label	Test category	Qualif. Status	ATP Expiration date	Next PTP participation required	Remark
AITM 3-0005	Determination of specific gas components of smoke generated by aircraft interior materials	1	Authorised to Proceed	December 2015		Aircraft interior m Authorisation granted based in closure of findings from onsite audit. Technical Qualification ongoing.

* Next PTP participation required = TBD: You will be informed when next PTP will be launched.

Remark: The Airbus Testing Qualification may be cancelled by Airbus in case of major incident(s) detected on one or several processes.
